Dark Colors Disclaimer

For cake orders that involve dark reds, blues, purples, or black colors

I, the undersigned, acknowledge that dark food coloring on cakes has the potential to stain linens, clothing, furniture, and teeth upon contact. [Your bakery name here] cannot be held liable for issues resulting from my choice of dark color/s.

I also acknowledge that [your bakery name here] will strive to accurately match my color choices, however some color tones, especially deep reds, vibrant blues, and violet tones, may not make an exact match due to the natural base colors of cake, frosting and decorating ingredients.

I understand that deep colors require a significant amount of food coloring, which may adversely affect the flavor and quality of the cake.
